One company, two great adventures. Wild Wood is owned and managed by Craggy Island, the company started in 2004 to provide the best in indoor climbing and based in Guildford, with another branch near Sutton in Surrey. We incorporated our background in rock climbing and adventure businesses to design Wild Wood to be fun and exhilarating for all ages. Drawing on our knowledge of working at height and handling groups of children and adults of all abilities, we took a huge amount of time and effort to design what we think is the best high level attraction of its type anywhere in the UK.
