

Perth Solar Direct Joondalup

17/88 Lakeside Drive
Joondalup, Western Australia 6027
Australia

Phone: 1300383843

Perth Solar Direct is proud to offer reliable and cost-effective solar power. We can customise a system for your needs, whether you need an installation with photovoltaic (PV) panels or battery storage systems that will provide energy security in the long term. Our team specialises in finding solutions for commercial properties as well as residential ones; we have both state of the art inverters and professional installers who do installations combined with PV panels so all components work together perfectly.
